

I currently utilize Airl's broadcast via it's online broadcast. However when we are traveling we take a list of stations that broadcast airl so that we can listen and enjoy the music they play. Airl is a very positive influence on our community. Many people are encouraged by the songs of worship and the prayers of encouragement. Airl is in the public interest to maintain its current broadcasting and encouragement for the community. I think it would be very well accepted if Airl could be allocated a frequency in the Sioux Falls area. Nothwest Iowa and Southwest Minnesota also receive the broadcast from the area and the demographic is largely reformed christians. We love the music that Airl plays.
